

FIRST PROTOTYPES

Color your journey, color your world

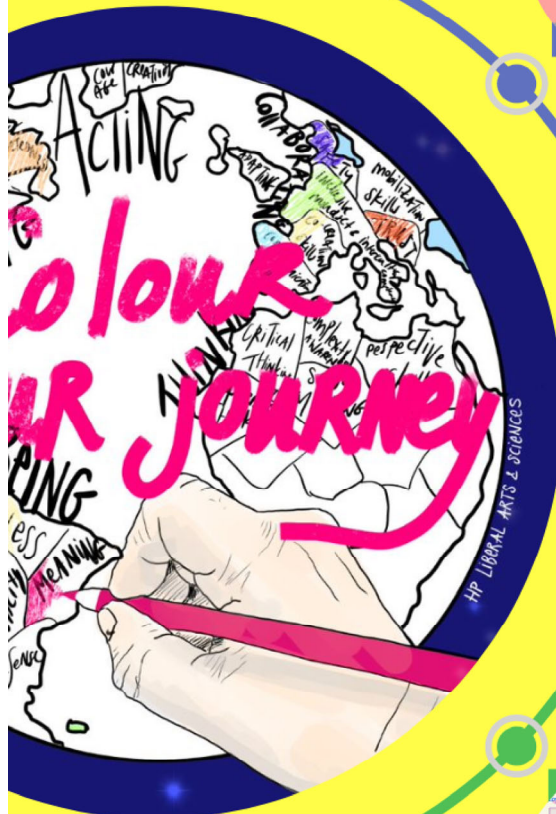

EXPERIMENT 22/23 HP LIBERAL ARTS & SCIENCES

'EVERYTHING IS COLOURED SINCE ALL THE COLOURS REFER TO IDG THAT I HAVE BEEN WORKING ON, THE REST I LEFT BLANK'

'MY IDEA IS TO MAKE KIND OF A CARTOON THAT SUMMARIZES THE QUARTER AND YOU CAN FILL OUT THE SDG'S AND ADD ELEMENTS OF THE QUARTER. YOU CAN SEE THE DEVELOPMENT OF ONE YEAR ON ONE PAGE'

'EACH DOT REPRESENTS A NEW MILESTONE AND IT MADE ME VERY SATISFIED TO SEE WHAT I HAVE ACCOMPLISHED AND WHERE I AM CURRENTLY'

'THE BOWL REPRESENTS AND THE QUALITIES FROM IDG REPRESENT THE WATER. I CAN SEE SOME OF THEM START TO MANIFEST'

THE GIRL IS PEACEFUL AND HAS ELEMENTS THAT REPRESENT ME. THE BLANK PARTS REPRESENT Q3/4. THE BOTTOM OF THE DRAWING WAS Q1, IT WAS A BIT MORE CRAZY, IT SHOWS IN THE COLORS AND SHAPES. IT REPRESENTS ALL THE NEW THINGS I EXPERIENCED AND THE NEW PEOPLE I MET'

We started this experiment explaining and discussing the observations and experiences that are the foundation of these ideas. Consequently we formulated and explained the aim and the intention of this experiment. This resulted in a reflection assignment to make a first draft of a colorpainting connect this to ones development and the IDG. These are a few of the first drawings we received. The next step in this process will be to evaluate and find 'working' elements as well as the confusing bits. Next quarter the students will work on this assignment again. Taking the next step towards a second prototype.
